The University has continued to discharge its core mandate as guided by the 2013-2018 Strategic Plan, in pursuit of its vision of “A World Class University committed to scholarly Excellence”.

As the premier institution of higher learning in Kenya, the University has continued to offer quality education and training that meets the expectations of industry and the general populace. This is evident from the huge array of programmes on offer, which are built within curricula that is prepared in consultation with Industry. The University has also risen to the challenge of Kenya’s Vision 2030 in terms of offering Kenyans greater opportunities for transiting to University, and ultimately, making a significant contribution in turning Kenya into a middle income economy.

The good performance of the University is attributed to the commitment and dedication of staff who worked tirelessly to support management in achieving University objectives.

Within the year a lot of support, direct and in kind, was received from the government, donors, sponsors, alumni and other stakeholders.
